Trail Mix Recipe Problem-Solving Homework

Directions: Solve the problem using the Trail Mix Recipe below. Show a visual model for each ingredient.

You are making the following Trail Mix recipe for a trip with your friends.

- The recipe serves 2 people.
- You want to have enough trail mix to serve 6 people altogether.

How much of each ingredient will you need to have to make the recipe?

Trail Mix Recipe

- $\frac{1}{2}$ cup cashews
- $\frac{1}{4}$ cup peanuts
- $\frac{2}{3}$ cup almonds
- $\frac{3}{4}$ cup raisins
- $\frac{7}{8}$ bag of chocolate candies
