## Read, Write, and Round Numbers Homework

1. Write the number $\mathbf{8 0 3}$ in

- Word form:
- Expanded form: $\qquad$
- Place value form: $\qquad$

2. Brian says there are zero tens in 803. Josh says that even though there is a zero in the tens place, there are actually 80 tens in 803 .

Use complete sentences to help Josh explain to Brian why there are 80 tens in 803.
Use question \#1 to help guide your thinking.
You may also use a place value drawing to help with your explanation.
