Subtraction Undoes Addition Homework

There are 321 students in the school play. 159 of them are girls. How many of them are boys?

A. Fill in the **break-apart drawing** to show how you will solve the problem.

B. Solve the problem in the space below with a **place value drawing**.

C. Explain the place value drawing in a paragraph or by labeling/captioning each step of your drawing. In your explanation use the words:

ones, tens, hundreds, and ungroup. Explain how to check your work using the **inverse operation.**
